الأونروا

UNRWA is the United Nations Relief and Works Agency for Palestine Refugees in the Near East. We provide assistance to 5 million registered refugees in Jordan, Lebanon, Syria and the occupied Palestinian territory. Our services encompass education, primary health care, poverty alleviation, camp improvement and infrastructure projects, community support, microfinance and emergency support.

Our entire operation is based on **empowering refugees**; we employ more than 30,000 refugees as engineers, social workers, teachers, microloan officers, doctors, construction workers, nurses, logistics managers and much more.

**Contact us  
today to find  
out how to partner!**

**Business is a critical partner** of the United Nations. Understanding the high value of UN-business partnering, we at UNRWA continuously work to foster private sector alliances in order to increase impact.

Based on the principles of the **UN Global Compact**, we believe in a world where private companies play a constructive role in finding durable solutions to development challenges.

Business partnerships range from one-off resource contributions in support of key development goals, to multi-year **transformational partnership activities** based on detailed coordination between the parties and resource exchange.
